

# Michael ADJEISAH

Ph.D. | Machine Learning, Deep Learning & NLP

## Personal Information

Birthday: 1988-03-05  
Nationality: Ghanaian  
Language: English (official)  
Mandarin: (Intermediate)

## Contact

Skype: fi.michael1  
+86 132 6257 2923  
madjeisah@hotmail.com  
madjeisah@zjnu.edu.cn

## Programming Langs.

- Python (expert)
- Linux (expert)
- HTML5 & CSS3 (expert)
- Java (proficient)
- SQL (proficient)
- JavaScript (proficient)
- C++ (prior experience)

## Designing Software

- CorelDraw (expert)
- Photoshop (expert)
- Dreamweaver (proficient)
- Illustrator (proficient)

## Career objective

To succeed in an environment of growth and excellence: earn a job that provides job satisfaction and self-development to achieve personal and organizational goals.

## Education

Sep 2016 – Mar 2021

**PhD.** Computer Science  
Enterprise Information System & Eng.

Donghua University  
Shanghai – China

Feb – Jun 2017

**Certificate** of Completion  
Relevant Courses:

- Machine Learning
- Advance Computer Vision
- Advance NLP

Udemy Online Training

Sep 2013 – Jul 2016

**MSc.** Computer Science  
Computer Applied Technology

Lanzhou University,  
Lanzhou – China

Aug 2014 – Jun 2015

**Certificate** of Completion  
Relevant Courses:

- Java Advanced Training
- C++ Essential Training
- Object Oriented Programming
- Leadership Fundamentals
- Project Management

Lynda.com Online  
Training

Sep 2012 – Jul 2013

**Mandarin-HSK 4 Certificate**

Lanzhou University,  
Lanzhou – China

Sep 2007– Jul 2011

**Bachelor** of Education

University of Education,  
Winneba – Ghana

## Skills

### Technical Specialties

- Deep understanding of machine learning and application to all domains.
- Experience with feature engineering, transfer learning, regression, classification.
- Familiar with open-source deep learning frameworks (Tensorflow, Pytorch, Theano, Keras).
- Good hands with the trends in the domain of deep learning (GoogLeNet, VGG, ResNet).
- Comprehensive understanding of object detection frameworks (Faster R-CNN, SSD and YOLO).
- Expertise in NLP Applications (QA, Word Segmentation, Phrase Extraction, Relationship Extraction, Entity Recognition, Dialogue, Automatic Summarization).
- Familiar with commonly used deep learning algorithms and models, such as CNN, LSTM, GNN Transformer, and OpenAI.
- Expertise in Data Visualization in Python.

### Soft Skills

- Good communication and presentation skills.
- Problem solving, teamwork and leadership.

### Personal Abilities

I am highly energetic, having good interpersonal relationship and communication skills, ability to work for longer hours with less or no supervision. Also adherence to programming and testing standards, accuracy and creativity in finding efficient solutions to given requirements.

## Experience

Sep 2021 – Present	<b>Zhejiang Normal University</b> - Post-doctoral Fellow <span>Jinhua - China</span> <ul style="list-style-type: none"><li>Analyze, interpret, and document research findings for review.</li><li>Compare actual and expected results and suggest solutions to correct the deviations.</li><li>Evaluate existing research or modeling techniques and recommend improvements to ensure quality and productivity.</li><li>Assist in the preparation of proposals and reports.</li></ul> <p><i>Project – Graph Data Augmentation (GDA) Evaluation-based Framework</i></p> <ul style="list-style-type: none"><li>A framework to evaluate the current state-of-the-art GDA algorithms based on three most widely used GNN backbones (GCN, GAT and GraphSAGE).</li><li>Findings of this work is submitted to the journal of Computer Science Review.</li></ul> <p><i>Project – SCMvL: Search-based Contrastive Multi-View Learning for Graph Classification</i></p> <ul style="list-style-type: none"><li>Composed a SCMvL by engaging a pre-training framework using contrastive learning.</li><li>The approach collectively searches for the best augmentation pair to learn a particular dataset's intrinsic and transferable structural representations.</li><li>Findings of this work is submitted to ACM-The Web Conference (TheWebConf 2023) and the Journal of Knowledge-Based Systems.</li></ul>
Oct 2015 – Jan 2016	<b>AppInChina</b> - <a href="http://www.appinchina.co">www.appinchina.co</a> <span>Beijing - China</span> <p>Front-end Developer Intern</p> <ul style="list-style-type: none"><li>Worked closely with the Back End developer to implement the company's website, ensuring strong optimization and functionality</li><li>Monitor browser technical performance and web server</li><li>Worked on projects including web layout enhancements, website enhancements, and database-backup websites</li></ul>
Oct 2011 – Jul 2012	<b>Suhum Senior High Technical</b> <span>Suhum, Eastern - Ghana</span> <p>National Service Personnel (Graphic Design Instructor)</p> <ul style="list-style-type: none"><li>Planned daily and weekly lessons according to the curriculum</li><li>Made engaging lessons that develop students' critical thinking and problem-solving skills.</li><li>Communicated designing concepts, checked student notebooks, and marked their progress regularly.</li><li>Examination supervision and assessment of students.</li></ul>

## Interests

**Professional:** data science, machine learning, NLP, CV, software design and implementation, web design, and graphic design.

**Personal:** computing, singing, reading, listening to inspirational and motivational materials.

## Publication(s)

### Under review

- Tewodros Ayall, Huawen Liu, Changjun Zhou, Mohammed Abegaz, Nahom Hayla, and **Michael Adjeisah**, "Cooperative Window based Edge Partitioning via Edges subtraction and Postponement," Under revision in the Journal of Computers and Electrical Engineering.
- **Michael Adjeisah**, Xinzhong Zhu, Huiying Xu, and Tewodros Ayall, "Graph Contrastive Multiview Learning: A Pre-Training Framework for Graph Classification," Submitted to the Journal of Knowledge-Based Systems.
- **Michael Adjeisah**, Xinzhong Zhu, Huiying Xu, and Tewodros Ayall, "SCMvL: A Search-based Contrastive Multi-View Learning for Graph Classification," Submitted to ACM-The Web Conference (TheWebConf 2023).
- **Michael Adjeisah**, Xinzhong Zhu, and Huiying Xu, "Towards Data Augmentation in Graph Neural Network: An Overview and Evaluation," Under major revision in Computer Science Review.
